<b>6500lb Stock Gas</b>	1	\$200	2	\$100	3	\$75	4	\$50
<b>6500lb Stock Gas 2wd</b>	1	\$200	2	\$100	3	\$75	4	\$50
<b>6500lb Modified Gas</b>	1	\$200	2	\$100	3	\$75	4	\$50
<b>7200lb Modified Gas</b>	1	\$200	2	\$100	3	\$75	4	\$50
<b>8000lb Street Diesel</b>	1	\$200	2	\$100	3	\$75	4	\$50

## General truck pull rules - apply to all classes

1. OEM firewall and floorboard.
2. Under hood inspection can be done at any time.
3. 26' hitch height for 4wd, 30" for 2wd.
4. DOT approved tires 35" max height, no cut or sharpened tires.
5. OEM stock 1 ton or less drive train and OEM brakes.
6. Factory dual wheel trucks can run duals.
7. Blocks and ladder bars allowed. Blocks must be removable in stock trucks.
8. Safety chains and loops around the drive shafts suggested for stock trucks, required for modified class.
9. It is suggested for Stock trucks, but mandatory that Modified trucks must have driveshaft shield around the rear U joint and front shaft/front U joint. It must be 4" from center of U joint both ways, made from 1/8" thick steel and can be bolted together by 3/8" bolts. Shield can be maximum 4" larger than the diameter of the driveshaft.
10. No altered frames.
11. No sanctioned trucks.
12. NO WHINING—Judges decisions final & take precedent over printed material.

## Stock Gas 6500 lb

1. 472 maximum cubic inch limit, with the exception of Cadillac 500, Chevy 8.1, and Dodge V10 which must be stock cubic inch.
2. No roller camshafts, but rocker rollers are ok.
3. Must pull 15 inches of vacuum at 1000 rpm.
4. Can pull from reese, bumper, or drawbar hitch. Hook point must be no less than 42" from rear axle, no floating hitches.
5. Weights in bed only and secured. No heavy front bumpers.
6. No full length headers, shorty headers allowed, exhaust must exit at minimum behind cab.
7. Must run factory heads and intake.
8. Truck body must match truck frame, full size to full size, mid size to mid size. Flat beds ok.
9. Pump gas only. NO race fuel, alcohol, nitrous, or methane based fuels allowed. Nothing stronger than 97 octane.
10. Only factory fuel injection allowed.

## Modified Gas Only 6500, 7200 lb

1. 540 cubic inch + 2% limit on block, aftermarket blocks allowed.
2. 4x4 truck must pull in 4-wheel drive.
3. Pull from reese type, bumper, or drawbar type hitch, with no part of hitch in front of the center of the rear axle and nothing higher than 2 inches above the top of the frame rail. Hooking point must be no less than 42" from center of the rear axle. It must be accessible and RIGID. No floating hitches.
4. No aluminum heads—cast iron only. Aluminum intake and headers allowed. No side exit exhaust.
5. No alcohol, nitrous, or methane based fuels allowed. Single carburetor only.
6. 140" wheelbase or less may have front weights 60" or less from center of front axle. Trucks more than 140" wheelbase cannot have any weights more than 2' from the stock bumper location in the front of the truck.
7. Scatter blanket or blow proof bell housings and kill switches mandatory.

## Street Diesel 8000 lb

1. Limited to one stock appearing turbo, with the exception of Ford 6.4 Powerstroke with factory twin turbos.
2. No front weights or weight box.
3. No hand throttle.
4. Dual wheels allowed if factory equipped.
5. No water injection allowed.
6. No exhaust stacks through hood.
7. Diesel fuel only.
8. Limited to one fuel pump, no dual CP3's.
